

80S RETRO LOGO

BY ULYANA.STUDIO

Hi!

Thank you for buying this item! This document will help you to customize project to your needs.

- 1) Download and install fonts [Yellowtail](#)
- 2) Download [Urban Scratch Logo](#)
- 3) Open the project.
- 4) Drag your logo into the project window. Open composition «**LOGO**» and drag your logo inside the composition.
- 5) Open composition «**AUDIO**». All the sounds that I made for this project are stored here. You can combine them to your needs.
- 6) Next step is text editing. Open composition «**TEXT**» & edit default text with [Horizontal Type Tool](#) (CMD+T; Ctrl+T)
- 7) Color controllers. Go to the «**MAIN**» composition and click on «**CONTROLLERS**» layer
Here you will find all the controllers.
- 8) Final step is rendering.
Select «**MAIN**» comp, click on «**Composition**» menu and select «**Add to Render Queue**».
Adjust the settings and render out video.
- 9) If you like this project, please hit [this link](#) and give it a rating.
- 10)
